PASTELLI

Pastello, animo nobile
Pastel, noble soul

Pastelli è la dimensione più autentica del mosaico, in piena tradizione Appiani.

È la cifra del nostro tempo, la ricerca primigenia di un'emozione, di una connessione tenue, perciò costante ed autentica, tra la nostra personalità e l'anima del mondo.

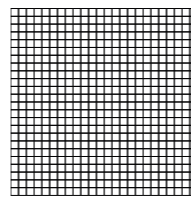

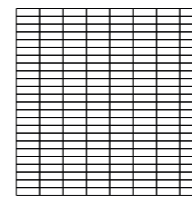

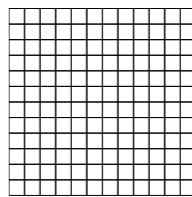

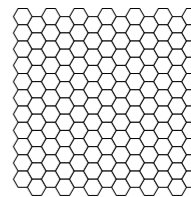

Pastelli is the most authentic mosaic dimension, in full Appiani tradition. It is the cipher of our time, the primal search for an emotion, for a tenuous (and therefore constant and authentic) connection between our personality and the soul of the world.

Mosaico in grès porcellanato.

Mosaic in porcelain stoneware.

Pastelli, il grès full coloured body

Pastelli, full coloured body stoneware

Il mosaico Appiani in grès porcellanato full body garantisce elevate performance tecniche che non cambiano nel tempo.

Alte temperature di cottura ed elevata compattezza consentono una significativa resistenza ai carichi, agli urti, all'usura e al gelo. Grazie al basso assorbimento di acqua ($E \leq 0,5\%$), il mosaico Appiani è il materiale ceramico più adatto per la posa in esterno a pavimento e a rivestimento, anche in prossimità di superfici umide e a contatto con l'acqua. In particolare, la collezione Pastelli è un prodotto colorato in tutta massa, a partire da argille e terre pigmentate che vengono poi pressate, per comporre ogni singola tessera nelle diverse linee colore. Un prodotto in perfetta coerenza con le collezioni esistenti, per una potenzialità estetica e una durevolezza senza compromessi.

The new Appiani full-body porcelain stoneware mosaic guarantees advanced technical performance that will not change over time.

High firing temperatures and high compactness allow significant resistance to loads, shocks, wear and frost. With its low water absorption ($E \leq 0.5\%$) the Appiani mosaic is the most suitable ceramic material for outdoor laying on floors and walls, including near surfaces that are damp or in contact with water. In particular, the Pastelli collection is a full-body coloured product, which starts from clay and pigmented earths which are then pressed, to compose each single tile in the different colour lines. A product that is perfectly coherent with the existing collections, for aesthetic potential and uncompromising durability.

L'architettura del colore

Indistruttibile eppure delicata all'apparenza, è la natura di Pastelli, la nuova collezione Appiani pensata per riportare l'architettura degli spazi abitativi alla dimensione originaria, sartoriale, a tratti naïf.

Pastelli è la soluzione ideale per un uso a pavimento, dove la distinzione tra interno ed esterno, tra pavimentazione e rivestimento, si fa più labile, e quindi libera. Grazie a un materiale straordinario, il grès porcellanato, una terra colorata e pressata in *tutta massa*, con proprietà antibatteriche, antifungine, antimacchia, tassi d'assorbimento all'umidità quasi nulli. Pastelli è disponibile in 8 colori e 4 formati, con la possibilità di sfruttare le fughe in contrasto per realizzare geometrie particolari e linee decorative già all'interno del singolo foglio di rete, una matrice 30x30 cm all'interno della quale ogni singola tessera trova la propria collocazione in relazione al progetto originario.

Una proposta che allontana gli schemi, o meglio li incorpora, per un progetto che si vuole ambizioso eppure libero, nobile ma umile, adattivo e allo stesso tempo performante. Dove il dettaglio, il decoro, si traducono nell'unicità delle texture geometriche in connessione con forme, colori, ambientazioni.

The architecture of color

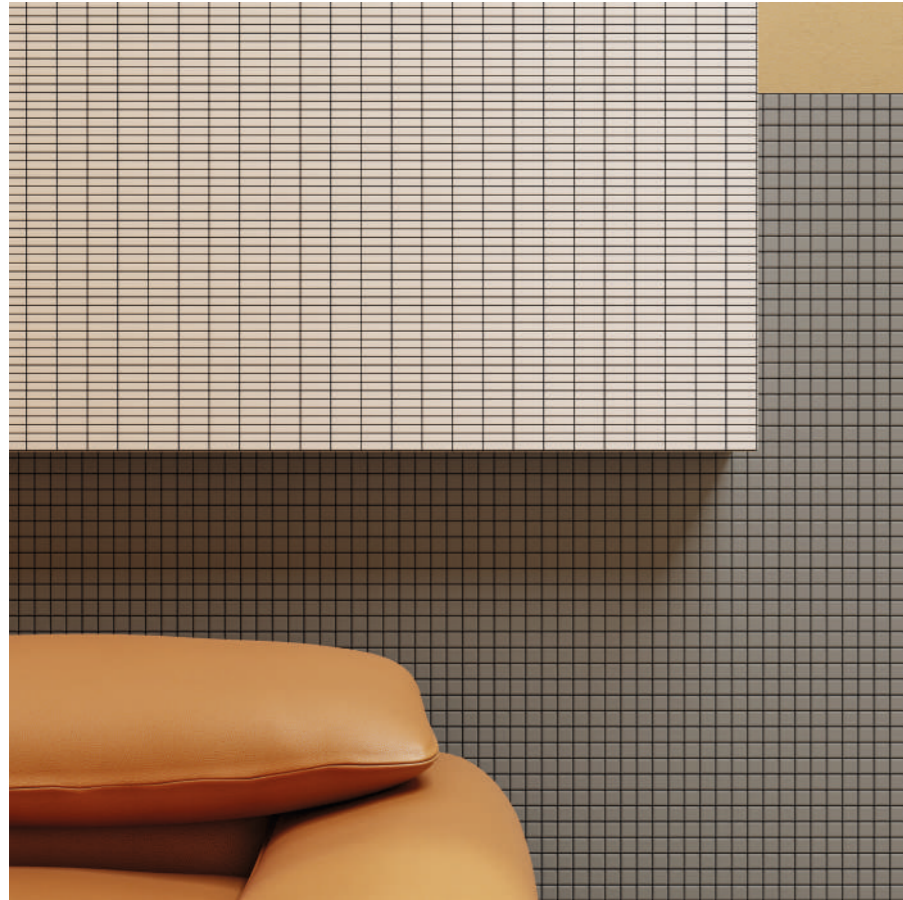

Indestructible yet delicate in appearance - this is the nature of Pastelli, the new Appiani collection designed to bring the architecture of living spaces back to the original, tailored, sometimes naive dimension.

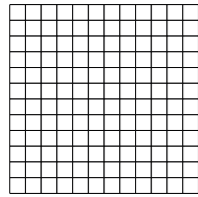

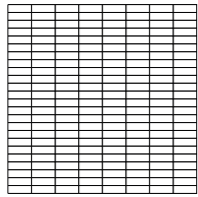

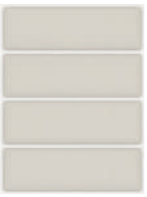

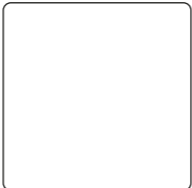

Pastelli is the ideal solution for floors, where the distinction between interiors and exteriors, between flooring and covering, becomes more blurred, and therefore free. This is thanks to an extraordinary material, porcelain stoneware, a full-body, coloured and pressed stoneware, with antibacterial, antifungal, anti-stain properties and almost zero moisture absorption rates. Pastelli is available in 8 colours and 4 sizes, with the possibility of using contrasting joints to create particular geometries and decorative lines inside the single mesh sheet. Inside the 30x30 cm matrix each individual tessera finds its own position in relation to the original project.

A solution that moves away from traditional patterns, or rather incorporates them, for a project that is ambitious yet free, noble but humble, adaptive and at the same time performing. Where details and decoration are translated into the uniqueness of the geometric textures in connection with shapes, colours, settings.

Antibacterial defense

Difesa antibatterica Appiani Bio Shield+

Tutte le recenti collezioni Appiani sono sviluppate con *Bioshield+*, il primo ed unico trattamento "nativo" battericida, antimuffa ed antimacchia, durevole nel tempo e che protegge la superficie in qualsiasi condizione d'uso, di temperatura, di luce.

Bioshield+ nasce dalla collaborazione con *Metco Italia*, leader nella ricerca di settore con l'innovativa finitura *Zerobakter 4ever*.

Molto di più di uno "scudo antibatterico", la soluzione è certificata secondo le norme internazionali più severe, garantendo una protezione costante, resistente agli agenti chimici presenti nei detergenti più comuni, senza interferire con le proprietà estetiche e tecniche della superficie ceramica.

L'ideale quindi per la salubrità di ambienti dove è necessario garantire la massima igiene e comfort, dagli ospedali alle scuole, dalle mense agli ambienti wellness, dagli alberghi alle nostre case.

Appiani Bio Shield+ antibacterial defense

All the recent Appiani collections are developed with Bioshield+, the first and only "native" bactericidal, anti-mould and anti-stain treatment, which is long-lasting and protects the surface in any condition of use, temperature and light.

Bioshield+ was born from the collaboration with Metco Italia, a leader in research in this sector and the creator of the innovative Zerobakter 4ever finish.

This solution (which is much more than just an "antibacterial shield") is certified according to the strictest international standards, guaranteeing constant protection, which is resistant to the chemical agents present in the most common detergents, but does not interfere with the aesthetic and technical properties of the ceramic surface. It is therefore ideal for settings where maximum hygiene and comfort must be guaranteed, such as in hospitals, schools, canteens, wellness environments, hotels, and our homes.

Ultra tecnico e Ultra Green

Technical Sheet

Ultra tecnico e Ultra Green

Senza macchia, letteralmente. Questo è Pastelli, un prodotto ultra-tecnico che si inserisce perfettamente nella tradizione Appiani, focalizzata sul piccolo formato, la valorizzazione estetica e la cura dei dettagli.

Un prodotto superiore da ogni punto di vista, *antimacchia* e antifungino, realizzato in monopressatura. Ma anche un prodotto sostenibile, con terre e pigmenti certificati, un bilancio di sostenibilità di fabbrica, investimenti costanti per migliorare l'efficienza delle macchine e del processo.

Appiani dal 1992 è un brand del Gruppo Bardelli S.p.A., la realtà industriale Italiana che ha sempre posto l'eccellenza ceramica al servizio della progettazione contemporanea facendone così il proprio marchio di fabbrica.

Dove la sostenibilità è al centro di ogni processo decisionale, nel rispetto dell'ambiente e delle comunità in cui opera l'attività produttiva.

Ultra technical and Ultra Green

Spotless, literally. This is Pastelli, an ultra-technical product that fits perfectly into the Appiani tradition, focused on small format, aesthetic enhancement and attention to detail.

A superior product from every point of view, anti-stain and antifungal, made in single-pressing. It is also a sustainable product, with certified earths and pigments, a factory sustainability balance, constant investments to improve machine and process efficiency.

Since 1992, Appiani has been a brand of the Gruppo Bardelli SpA group, the Italian industrial reality that has always placed ceramic excellence at the service of contemporary design, thus making it its trademark.

Where sustainability is at the centre of every decision-making process, respecting the environment and the communities in which the production activity takes place.
